 (f/k/a CINGULAR WIRELESS LLC),
 CINGULAR WIRELESS CORP., AND
 NEW CINGULAR WIRELESS
 SERVICES, INC.

Plaintiffs, by their attorneys, for their Master Consolidated Complaint against **Defendants**
AT&T Mobility LLC (f/k/a Cingular Wireless, L.L.C.), Cingular Wireless Corp., and New
Cingular Wireless Services, Inc., allege, upon information and belief, as follows:

PRELIMINARY STATEMENT

1. This Master Consolidated Complaint Against Defendants AT&T Mobility LLC
 (f/k/a Cingular Wireless, L.L.C.), Cingular Wireless Corp., and New Cingular Wireless Services,

1 Inc., ("Cingular Master Complaint" or "Complaint") is filed pursuant to the Order of this Court
2 and presents all claims brought against Defendants AT&T Mobility LLC (f/k/a Cingular
3 Wireless, LLC), Cingular Wireless Corp., and New Cingular Wireless Services, Inc., (collectively
4 "Defendants" or "Cingular") in the separate cases transferred by the Panel on Multidistrict
5 Litigation in this matter in its orders dated August 14, 2006, and September 25, 2006
6 ("transferred cases"). Unless otherwise ordered by this Court, all claims presented in any case
7 against Defendants AT&T Mobility LLC (f/k/a Cingular Wireless, LLC), Cingular Wireless
8 Corp., and New Cingular Wireless Services, Inc., subsequently transferred to this Court by the
9 Panel on Multidistrict Litigation in this matter shall be deemed to be included in this Cingular
10 Master Complaint.
11

12 2. This Cingular Master Complaint is filed solely as an administrative device to
13 promote judicial efficiency and economy in the adjudication and resolution of pretrial matters and
14 is not intended to effect consolidation for trial of the transferred cases. Neither is this Cingular
15 Master Complaint intended to cause, nor to change the rights of the parties, nor to make those
16 who are parties in one transferred case parties in another.
17

18 3. This case challenges the legality of Defendants' participation in a secret and
19 illegal government program to intercept and analyze vast quantities of Americans' telephone
20 communications and records, surveillance done without any statutorily authorized permission,
21 customers' knowledge or consent, or the authorization of a court, and in violation of federal
22 electronic surveillance and telecommunications statutes, as well as the First and Fourth
23 Amendments to the United States Constitution. In addition, Plaintiffs challenge Defendants'
24 conduct under state law.

22
23 20. Defendant AT&T Mobility LLC (formerly known as Cingular Wireless LLC) is a
24 Delaware LLC. AT&T Mobility LLC is a "telecommunication carrier" within the meaning of the
25 Communications Act of 1934, 47 U.S.C. §§ 151, *et seq.* and provides remote computing and
26 electronic communications services to the public. On or about January 8, 2007, Cingular
27 Wireless LLC changed its name to AT&T Mobility LLC. (For convenience, the newly-named
28 "AT&T Mobility LLC" may be referred to using its prior name "Cingular Wireless LLC.")

1 21. Defendant Cingular Wireless Corp. is a Delaware corporation with its principal
2 place of business in Atlanta Georgia. Defendant Cingular Wireless Corp., is a
3 “telecommunication carrier” within the meaning of the Communications Act of 1934, 47 U.S.C.
4 §§ 151, *et seq.* and provides remote computing and electronic communications services to the
5 public.
6

7 22. Defendant New Cingular Wireless Services, Inc. is a for-profit corporation,
8 incorporated in Delaware, with its principal place of business in Redmond, Washington. New
9 Cingular Wireless Services, Inc. was formerly AT&T Wireless Services Inc. New Cingular
10 Wireless Services, Inc. (under its current name or former name) is a “telecommunication carrier”
11 within the meaning of the Communications Act of 1934, 47 U.S.C. §§ 151, *et seq.* and provides
12 remote computing and electronic communications services to the public.
13

14 **FACTUAL ALLEGATIONS**

15 23. In Section 222 of the Communications Act of 1934 (47 U.S.C. § 222(c)(1)),
16 Congress imposed upon telecommunication carriers, such as Defendants, a duty to protect
17 sensitive, personal customer information from disclosure. This information includes “information
18 that relates to the quantity, technical configuration, type, destination, location, and amount of use
19 of a telecommunications service subscribed to by any customer of a telecommunications carrier,
20 and that is made available to the carrier by the customer solely by virtue of the carrier-customer
21 relationship” and data concerning service customers’ telephone calling histories (*i.e.*, date, time,
22 duration, and telephone numbers of calls placed or received) or call-detail records, and such
23 information constitutes “individually identifiable customer proprietary network information”
24 within the meaning of Section 222 of the Communications Act of 1934.
25

26 24. Federal law prohibits telecommunications providers such as Defendants from
27 disclosing customers’ call-detail records to the government without a court order, subpoena, or
28

1 other lawful authorization.

2 25. In the aftermath of September 11, 2001, Defendants commenced their programs of
3 providing the federal government with the telephone call contents and records of its customers
4 and subscribers. Defendants continue to provide this information to the federal government.

5 26. On December 16, 2005, in an article entitled "Bush Lets U.S. Spy on Callers
6 Without Courts," *The New York Times* reported on an NSA program of eavesdropping on the
7 telephone conversations of Americans without court order as required by the Foreign Intelligence
8 Surveillance Act.

9 27. In a December 17, 2005 radio address, President Bush admitted that "[i]n the
10 weeks following the terrorist attacks on our nation, [he] authorized the National Security Agency,
11 consistent with U.S. law and the Constitution, to intercept the international communications of
12 people with known links to al Qaeda and related terrorist organizations." President Bush further
13 stated that "the activities [he] authorized are reviewed approximately every 45 days"; that he had
14 "reauthorized this program more than 30 times since the September the 11th attacks"; and that he
15 intended to continue authorizing such activity "for as long as our nation faces a continuing threat
16 from al Qaeda and related groups."

17 28. In a press briefing on December 19, 2005 by Attorney General Gonzales and
18 General Michael Hayden, Principal Deputy Director for National Intelligence, the government
19 claimed that the NSA Surveillance Program targets communications between a party outside the
20 United States and a party inside the United States when one of the parties of the communication is
21 believed to be "a member of al Qaeda, affiliated with al Qaeda, or a member of an organization
22 affiliated with al Qaeda, or working in support of al Qaeda."

23 29. In a press release on December 19, 2005, Attorney General Alberto Gonzales
24 stated that the Program involved "intercepts of contents of communications" While the
25
26
27
28

1 Attorney General's description of the Program was limited to interception of communications
2 with individuals "outside the United States," Attorney General Gonzales explained that his
3 discussion was limited to those parameters of the program already disclosed by the President and
4 that many other operational aspects of the program remained highly classified.

5
6 30. On December 24, 2005, *The New York Times* reported in an article entitled, "Spy
7 Agency Mined Vast Data Trove, Officials Report," that:

8 [t]he National Security Agency has traced and analyzed large volumes of
9 telephone and Internet communications flowing into and out of the United States
10 as part of the eavesdropping program that President Bush approved after the Sept.
11 11, 2001, attacks to hunt for evidence of terrorist activity, according to current and
12 former government officials. The volume of information harvested from
telecommunication data and voice networks, without court-approved warrants, is
much larger than the White House has acknowledged, the officials said. It was
collected by tapping directly into some of the American telecommunication
system's main arteries, they said.

13 The officials said that as part of the program, "the N.S.A. has gained the cooperation of American
14 telecommunications companies to obtain backdoor access to streams of domestic and
15 international communications" and that the program is a "large data-mining operation" in which
16 N.S.A. technicians have combed through large volumes of phone and Internet traffic in search of
17 patterns that might point to terrorism suspects. In addition, the article reports, "[s]everal officials
18 said that after President Bush's order authorizing the N.S.A. program, senior government officials
19 arranged with officials of some of the nation's largest telecommunications companies to gain
20 access to switches that act as gateways at the borders between the United States' communication
21 networks and international networks."

22
23 31. In a January 3, 2006 article entitled, "Tinker, Tailor, Miner, Spy" (available at
24 <http://www.slae.com/toolbar.aspx?action=print&id=2133564>), Slate.com reported, "[t]he agency
25 [the NSA] used to search the transmissions it monitors for key words, such as names and phone
26 numbers, which are supplied by other intelligence agencies that want to track certain individuals.
27 But now the NSA appears to be vacuuming up all data, generally without a particular phone line,
28

1 name, or e-mail address as a target. Reportedly, the agency is analyzing the length of a call, the
2 time it was placed, and the origin and destination of electronic transmissions.”

3 32. In a January 17, 2006 article, “Spy Agency Data After Sept. 11 Led F.B.I. to Dead
4 Ends,” *The New York Times* stated that officials who were brief on the N.S.A. program said that
5 “the agency collected much of the data passed on to the F.B.I. as tips by tracing phone numbers in
6 the United States called by suspects overseas, and then by following the domestic numbers to
7 other numbers called. In other cases, lists of phone numbers appeared to result from the agency’s
8 computerized scanning of communications coming into and going out of the country for names
9 and keywords that might be of interest.”

11 33. A January 20, 2006 article in the *National Journal*, “NSA spy program hinges on
12 state-of-the-art technology,” reported that “[o]fficials with some of the nation’s leading
13 telecommunications companies have said they gave the NSA access to their switches, the hubs
14 through which enormous volumes of phone and e-mail traffic pass every day, to aid the agency’s
15 effort to determine exactly whom suspected Qaeda figures were calling in the United States and
16 abroad and who else was calling those numbers. The NSA used the intercepts to construct webs
17 of potentially interrelated persons.”

19 34. In a January 21, 2006 article in the *Bloomberg News* entitled “Lawmaker Queries
20 Microsoft, Other Companies on NSA Wiretaps,” Daniel Berninger, a senior analyst at Tier 1
21 Research in Plymouth, Minnesota, said “[i]n the past, the NSA has gotten permission from phone
22 companies to gain access to so-called switches, high-powered computer into which phone traffic
23 flows and is redirected, at 600 locations across the nation. . . . From these corporate relationships,
24 the NSA can get the content of calls and records on their date, time, length, origin and
25 destination.”
26
27
28

1 35. On January 25, 2006, an article appearing in the *Reporter-Times* entitled “NSA
2 Data Mining is Legal, Necessary, Chertoff Says” stated that “while refusing to discuss how the
3 highly classified program works (Department of Homeland Security Secretary) Chertoff made it
4 pretty clear that it involves “data-mining” – collecting vast amounts of international
5 communications data, running it through computers to spot key words and honing in on potential
6 terrorists.” In that same interview Secretary Chertoff is quoted as saying “ . . . if you’re trying to
7 sift through an enormous amount of data very quickly, I think it (obtaining a FISA warrant)
8 would be impractical”, and that getting an ordinary FISA warrant is “a voluminous, time-
9 consuming process” and “if you’re culling through literally thousands of phone numbers . . . you
10 could wind up with a huge problem managing the amount of paper you’d have to generate.”
11

12 36. On February 5, 2006, an article appearing in the *Washington Post* entitled
13 “Surveillance Net Yields Few Suspects” stated that officials said “[s]urveillance takes place in
14 several stages . . . the earliest by machine. Computer-controlled systems collect and sift basic
15 information about hundreds of thousands of faxes, e-mails and telephone calls into and out of the
16 United States before selecting the ones for scrutiny by human eyes and hears. Successive stages
17 of filtering grow more intrusive as artificial intelligence systems rank voice and data traffic in
18 order of likeliest interest to human analysts.” The article continues “[f]or years, including in
19 public testimony by Hayden, the agency [the NSA] has acknowledged use of automated
20 equipment to analyze the contents and guide analysts to the most important ones. According to
21 one knowledgeable source, the warrantless program also uses those methods. That is significant .
22 . . because this kind of filtering intrudes into content, and machines ‘listen’ to more Americans
23 than humans do.”
24

25 37. On February 6, 2006, in an article entitled “Telecoms let NSA spy on calls,” the
26 nationwide newspaper *USA Today* reported that “[t]he National Security Agency has secured the
27
28

1 cooperation of large telecommunications companies, including AT&T, MCI and Sprint, in its
2 efforts to eavesdrop without warrants on international calls by suspected terrorists, according to
3 seven telecommunications executives.” The article acknowledged that *The New York Times* had
4 previously reported that the telecommunications companies had been cooperating with the
5 government but had not revealed the names of the companies involved. In addition, it stated that
6 long-distance carriers AT&T, MCI, and Sprint “all own ‘gateway’ switches capable of routing
7 calls to points around the globe, and that “[t]elecommunications executives say MCI, AT&T, and
8 Sprint grant the access to their systems without warrants or court orders. Instead, they are
9 cooperating on the basis of oral requests from senior government officials.”

11 38. On May 11, 2006, in an article entitled “NSA has massive database of Americans’
12 phone calls,” *USA Today* reported that “[t]he National Security Agency has been secretly
13 collecting the phone call records of tens of millions of Americans, using data provided by AT&T,
14 Verizon and Bellsouth,” according to multiple sources with “direct knowledge of the
15 arrangement.” One of the confidential sources for the article reported that the NSA’s goal is “to
16 create a database of every call ever made” within the United States. The confidential sources
17 reported that AT&T and the other carriers are working “under contract” with the NSA, which
18 launched the program in 2001 shortly after the September 11, 2001 terrorist attacks. At the U.S.
19 Senate confirmation hearing on his nomination to become Director of the Central Intelligence
20 Agency, General Michael Hayden, who was the Director of the NSA at the time, confirmed that
21 the program was “launched” on October 6, 2001.

24 39. The *USA Today* story was confirmed by a U.S. intelligence official familiar with
25 the program. The story reports that the NSA requested that AT&T, SBC, and the other carriers
26 “turn over their ‘call-detail records,’ a complete listing of the calling histories of their millions of
27 customers,” and provide the NSA with “updates” of the call-detail records. The confidential
28

1 sources for the story reported that the NSA informed the carriers that it was willing to pay for the
2 cooperation, and that both "AT&T, which at the time was headed by C. Michael Armstrong," and
3 "SBC, headed by Ed Whitacre," agreed to provide the NSA with the requested information.

4 40. The *USA Today* story reported that the NSA requested that Qwest
5 Communications, Inc. ("Qwest"), another telecommunications carrier, provide the NSA with its
6 customers' call-detail records, but Qwest refused. Qwest requested that the NSA first obtain a
7 court order, a letter of authorization from the U.S. Attorney General's office, or permission from
8 a Court operating under the Foreign Intelligence Surveillance Act ("FISA"), but the NSA refused,
9 because it was concerned that the FISA Court and the Attorney General would find the NSA's
10 request unlawful.
11

12 41. As of the date of the filing of this Complaint, no part of the *USA Today* story has
13 been publicly denied by any representative of the federal government, including the NSA.
14

15 42. On May 16, 2006, in an article entitled "BellSouth Denies NSA Contract,"
16 eWeek.com reported that BellSouth's vice president of corporate communications, Jeff Battcher,
17 in an interview disputed the accuracy of information contained in the May 11, 2006 *USA Today*
18 article but "note[d] that his company owns 40 percent of wireless carrier Cingular" and that he
19 "[didn't] want to speak for Cingular".
20

21 43. Qwest's decision not to participate was also reported in an article from *The New*
22 *York Times* on May 13, 2006 entitled, "Questions Raised for Phone Giants in Spy Data Furor."
23 The article reported that Qwest's former CEO, Joseph Nacchio, "'made inquiry as to whether a
24 warrant or other legal process had been secured in support of that request. When he learned that
25 no such authority had been granted and that there was a disinclination on the part of the
26 authorities to use any legal process,' Nacchio concluded that the requests violated federal privacy
27 requirements 'and issued instructions to refuse to comply.'" According to the May 11, 2006 *USA*
28

1 Today article, "Nacchio's successor, Richard Notebaert, finally pulled the plug on the NSA talks
2 in late 2004."

3 44. Senator Christopher "Kit" Bond (R-MO), who also has received access to
4 information on warrantless surveillance operations, explained on May 11, 2006 on a PBS Online
5 NewsHour program entitled "NSA Wire Tapping Program Revealed" that "[t]he president's
6 program uses information collected from phone companies . . . what telephone number called
7 what other telephone number."

9 45. On May 14, 2006, when Senate Majority Leader William Frist (R-TN) was asked
10 on CNN Late Edition with Wolf Blitzer whether he was comfortable with the program described
11 in the *USA Today* article, he stated "Absolutely. I am one of the people who are briefed . . . I've
12 known about the program. I am absolutely convinced that you, your family, our families are safer
13 because of this particular program."

15 46. Senator Pat Roberts (R-KS), the chair of Senate Intelligence Committee, described
16 the program on "All Things Considered" on NPR on May 17, 2006. When asked about whether
17 he had been briefed that the NSA had collected millions of phone records for domestic calls,
18 Roberts stated: "Well, basically, if you want to get into that, we're talking about business
19 records."

21 47. On May 29, 2006, Seymour Hersh reported in *The New Yorker* in an article
22 entitled "Listening In" that a security consultant working with a major telecommunications carrier
23 "told me that his client set up a top-secret high-speed circuit between its main computer complex
24 and Quantico, Virginia, the site of a government-intelligence computer center. This link provided
25 direct access to the carrier's network core -- the critical area of its system, where all its data are
26 stored. 'What the companies are doing is worse than turning over records,' the consultant said.
27 'They're providing total access to all the data.'"

1 48. A June 30, 2006 *USA Today* story reported that 19 Members of the intelligence
2 oversight committees of the U.S. Senate and House of Representatives “who had been briefed on
3 the program verified that the NSA has built a database that includes records of Americans’
4 domestic phone calls,” and that four of the committee Members confirmed that “MCI, the long-
5 distance carrier that Verizon acquired in January, did provide call records to the government.”
6

7 49. Defendants knowingly and intentionally provide the aforementioned telephone
8 contents and records to the federal government.

9 50. As part of the Program, NSA’s operational personnel identify particular individual
10 targets and their communications, through a software data mining process that NSA runs against
11 vast databases of the Defendants’ stored electronic records of their customers’ telephone
12 communications, in search of particular names, numbers, words or phrases, and patterns of
13 interest. Upon information and belief, NSA’s operational personnel also identify communications
14 of interest in real time through similar data-mining software functionality.
15

16 51. Besides actually eavesdropping on specific conversations, NSA personnel have
17 intercepted large volumes of domestic and international telephone and Internet traffic in search of
18 patterns of interest, in what has been described in press reports as a large “data mining” program.
19

20 52. As part of this data-mining program, the NSA intercepts millions of
21 communications made or received by people inside the United States and uses powerful
22 computers to scan their contents for particular names, numbers, words, or phrases.

23 53. Additionally, the NSA collects and analyzes a vast amount of communications
24 traffic data to identify persons whose communications patterns the government believes may link
25 them, even if indirectly, to investigatory targets.

26 54. The NSA has accomplished its massive surveillance operation by arranging with
27 some of the nation’s largest telecommunications companies to gain direct access to the telephone
28

1 and Internet communications transmitted via those companies' domestic telecommunications
2 facilities, and to those companies' records pertaining to the communications they transmit.

3 55. Defendants have intercepted and continue to provide the government with direct
4 access to all or a substantial number of the communications transmitted through its key domestic
5 telecommunications facilities, including direct access to streams of domestic, international, and
6 foreign telephone and Internet communications.

7
8 56. Since in or about October 2001, Defendants have disclosed and/or divulged the
9 "call-detail records" of all or substantially all of their customers including Plaintiffs to the NSA,
10 in violation of federal law, as more particularly set forth below.

11 57. Defendants have, since in or about October 2001, been disclosing to the NSA
12 "individually identifiable customer proprietary network information" belonging to all or
13 substantially all of their customers including Plaintiffs, in violation of federal law, as more
14 particularly set forth below.

15
16 58. Defendants have disclosed and continue to disclose and/or provide the government
17 with direct access to its databases of stored telephone records, which are updated with new
18 information in real time or near-real time.

19 59. Defendants have provided at all relevant times and continue to provide computer
20 or storage processing services to the public by means of wire, radio, electromagnetic, photo-
21 optical, or photo-electronic facilities for the transmission of wire or electronic communications,
22 and/or by means of computer facilities or related electronic equipment for the electronic storage
23 of such communications.

24
25 60. Defendants have knowingly authorized, and continue to knowingly authorize,
26 NSA and affiliated governmental agencies to install and use, or have assisted government agents
27 in installing or using, interception devices and pen registers and/or trap and trace devices on the
28

1 Defendants' domestic telecommunications facilities in connection with the Program.

2 61. The interception devices and pen registers and/or trap and trace devices capture,
3 record or decode the various information pertaining to individual class member communications
4 including dialing, routing, addressing and/or signaling information ("DRAS information") for all
5 or a substantial number of all wire or electronic communications transferred through the
6 Defendants' domestic telecommunications facilities where those devices have been installed.
7

8 62. Using these devices, government agents have acquired and are acquiring wire or
9 electronic communications content and DRAS information directly via remote or local control of
10 the device, and/or the Defendants have disclosed and are disclosing those communications and
11 information to the government after interception, capture, recording, or decoding.
12

13 63. Defendants have knowingly authorized, and continue to knowingly authorize,
14 NSA and affiliated governmental agencies to directly access through the installed devices all
15 wireless telephone communications transmitted through the Defendants' domestic
16 telecommunications infrastructure and facilities for use in the Program.

17 64. Defendants intercept, divulge, and/or disclose to the federal government the
18 aforementioned telephone communications contents and records without probable cause.
19 Furthermore, Defendants have not received and/or are not acting within the scope of, in accord
20 with, or in good faith reliance on, any statutory authorization, legislative authorization, subpoena,
21 court order or warrant, nor any certification, request, or other lawful authorization under Chapter
22 119, 121, or 206 of Title 18 or Chapter 36 of Title 50, purporting to authorize the aforementioned
23 conduct.
24

25 65. To the best of Plaintiffs' counsel's knowledge, information, and belief, formed
26 after reasonable inquiry under the circumstances and likely to have evidentiary support after a
27 reasonable opportunity for further investigation and discovery, Defendants' interception,
28

1 divulgence and/or disclosure to the of the aforementioned telephone communications content and
2 records is willful, in bad faith, and done in collusion with the government, for purposes of direct
3 or indirect commercial advantage or private financial gain, and a failure to cooperate might have
4 jeopardized their ability to obtain lucrative government contracts.

5
6 66. Defendants did not disclose to its customers, including Plaintiffs, that it was
7 providing the aforementioned telephone contents and records to the federal government. Thus,
8 Defendants' customers, including Plaintiffs, had no opportunity to, and did not, consent to the
9 disclosure of their telephone contents and records.

10 67. The telephone contents and records intercepted and/or disclosed and/or divulged
11 by the Defendants to the federal government pursuant to the program challenged herein were not
12 divulged (a) pursuant to a law enforcement investigation concerning telemarketing fraud; (b) as a
13 necessary incident to the rendition of services to customers; (c) to protect the rights or property of
14 the Defendants; (d) based on a reasonable and/or good faith belief that an emergency involving
15 danger of death or serious physical injury required disclosure without delay; (e) to the National
16 Center for Missing and Exploited Children; or (f) to a non-governmental person or entity.

17
18 68. According to the "Investor Relations" page of its website, "BellSouth's wireless
19 business consists of a 40 percent interest in Cingular Wireless. Cingular Wireless is a joint
20 venture that was formed by combining the former domestic wireless operations of BellSouth and
21 AT&T (formerly SBC). Cingular Wireless is operated independently from both parents, currently
22 with a six member Board of Directors comprised of three directors from each parent. *BellSouth*
23 *and AT&T share control of Cingular Wireless.*" (emphasis added)

24
25 69. In a press release dated March 5, 2005 announcing plans for a merger between
26 AT&T Inc. and BellSouth Corporation, the companies stated that "the merger would also give
27 business and government customers, including military and *national security agencies*, a reliable
28

U.S.-based provider of integrated, secure, high-quality and competitively priced services to meet their needs anywhere in the world.” (emphasis added).

77. Plaintiffs seek certification of the Class and the Subclasses under Federal Rule of Civil Procedure 23(a), 23(b)(1), 23(b)(2), and 23(b)(3).

78. The Class and Subclasses number in the millions, so that joinder of all Members is impractical.

3 Plaintiffs have no conflicts with any other Class or Subclass member and have retained competent
4 counsel experienced in class actions, consumer, telecommunications, and civil rights litigation.

5 80. Common questions of law and fact exist, including:

- 6 a) Whether Defendants intercepted its customers' wire and electronic

21 Subclasses would create a risk on inconsistent or varying adjudication, establishing incompatible
22 standards of conduct for Defendant.

23 84. Defendant has acted, and refused to act, on grounds generally applicable to the
24 Class and Subclasses, thereby making appropriate relief with respect to the Class and Subclasses
25 as a whole.

2 Plaintiffs' and Class Members' communications while in electronic storage by a Defendant
3 electronic communication service, and/or while carried or maintained by a Defendant remote
4 computing service, in violation of 18 U.S.C. §§ 2702(a)(1) and/or (a)(2).

5
6 91. On information and belief, Defendants knowingly divulged to one or more persons
7 or entities the contents of Plaintiffs' and Class Members' communications while in electronic

9 Defendant remote computing service, in violation of 18 U.S.C. §§ 2702(a)(1) and/or (a)(2).

10 92. Defendants did not notify Plaintiffs or Class Members of the divulgence of their

20
21 96. Neither the NSA nor any other governmental entity has issued or obtained a
22 federal or state grand jury or trial subpoena authorizing such disclosures, pursuant to 18 U.S.C.
23 § 2703(c)(1)(E) and (c)(2).

26 requirements of 18 U.S.C. § 2511(2)(a)(ii)(B), *i.e.*, a certification that no warrant or court order
27 authorizing the disclosures is required by law, and that all statutory requirements have been met.
28

1 98. The disclosures were not and are not authorized by any statute or legislation.

2 99. Defendants' disclosures in violation of 18 U.S.C. § 2702(a)(3) were and are

5 to engage in the above-described divulgence of Plaintiffs' and Class Members' communications
6 while in electronic storage by Defendants' electronic communication service(s), and/or while
7 carried or maintained by Defendants' remote computing service(s), and that likelihood represents
8 a credible threat of immediate future harm.

11 described divulgence of the contents of their communications.

12 102. Pursuant to 18 U.S.C. § 2707, which provides a civil action for any person

21 103. Plaintiffs incorporate all of the allegations contained in the preceding paragraphs
22 of this Complaint, as if set forth fully herein.

23 104. In relevant part, 18 U.S.C. § 2702 provides that:
24
25
26
27
28

1 a. Prohibitions. Except as provided in subsection . . . (c)

2 (3) a provider of . . . electronic communication service to the
3 public shall not knowingly divulge a record or other
4 information pertaining to a subscriber to or customer of such
5 service (not including the contents of communications
6 covered by paragraph (1) or (2)) to any governmental entity.

7 105. Defendants' telephone services are "electronic communication service[s]," as that
8 term is defined in 18 U.S.C. § 2510(15), provided to the public, including Plaintiffs and Class
9 Members.

10 106. Defendants violated 18 U.S.C. § 2702(a)(3) by knowingly and intentionally
11 divulging to the federal government records or other information pertaining to subscribers or
12 customers of the Defendants' remote computing and electronic services.

13 107. Defendants' challenged program of disclosing telephone records to the federal
14 government does not fall within any of the statutory exceptions or immunities set forth in 18
15 U.S.C. §§ 2702(c), 2703(c), or 2703(e).

16 108. Neither the NSA nor any other governmental entity has obtained a warrant

22 pursuant to 18 U.S.C. § 2703(c)(1)(E) and (c)(2).

23 111. Neither the NSA nor any other governmental entity has issued or obtained a
24 federal or state grand jury or trial subpoena authorizing such disclosures, pursuant to 18 U.S.C.
25 § 2703(c)(1)(E) and (c)(2).

112. Defendant has not been provided with a certification in writing by a person specified in 18 U.S.C. § 2518(7) or by the Attorney General of the United States meeting the requirements of 18 U.S.C. § 2511(2)(a)(ii)(B), *i.e.*, a certification that no warrant or court order authorizing the disclosures is required by law and that all statutory requirements have been met.

113. The disclosures were not and are not authorized by any statute or legislation.

114. Whether or how the NSA, or any other governmental entity, actually used the records after they were divulged is irrelevant to whether Defendants violated 18 U.S.C. § 2702(a)(3).

115. Plaintiffs and their Class are aggrieved by the Defendants' knowing and intentional past disclosure and/or imminent future disclosure of their records to the federal government. Accordingly, plaintiffs may challenge this violation of 18 U.S.C. § 2702(a)(3) pursuant to the cause of action created by 18 U.S.C. § 2707(a).

THIRD CLAIM FOR RELIEF
Violation of 18 U.S.C. §§ 2511(1)(a), (1)(c), (1)(d), and (3)(a)

116. Plaintiffs incorporate all of the allegations contained in the preceding paragraphs of this Complaint, as if set forth fully herein.

117. In relevant part, 18 U.S.C. § 2511 provides that:

1 person or entity providing an electronic communication service to
2 the public shall not intentionally divulge the contents of any
3 communication (other than one to such person or entity, or an agent
4 thereof) while in transmission on that service to any person or entity
other than addressee or intended recipient of such communication
or an agent of such addressee or intended recipient.

5 118. Defendants violated 18 U.S.C. §§ 2511(1)(a), (1)(c), (1)(d), and (3)(a) by
6 intentionally intercepting and disclosing to the federal government the contents of telephone calls
7 of the Defendants' customers.

8 119. Defendants violated 18 U.S.C. § 2511(1)(d) by intentionally using, or endeavoring

18 Accordingly, Plaintiffs may challenge this violation of 18 U.S.C. §§ 2511(1)(a), (1)(c), (1)(d) and
19 (3)(a) pursuant to the cause of action created by 18 U.S.C. § 2520(a).

20
21
22 **FOURTH CLAIM FOR RELIEF**
23 **Violation of 47 U.S.C. § 605**

Defendants violated 47 U.S.C. § 605 by divulging or publishing the "existence" of Plaintiff's and Class Members' communications to the federal government by means other than through authorized channels of transmission or reception. Defendants' disclosure and publication of the existence of Plaintiff's and Class Members' communications was not authorized by any provision of 18 U.S.C. §§ 2510-2522.

126. Defendants' disclosure and publication of the existence of Plaintiff's and Class Members' communications was willful and for purposes of direct or indirect commercial advantage or private financial gain as they were paid for their cooperation, and a failure to cooperate might have jeopardized their ability to obtain lucrative government contracts.

127. Defendants failed to notify Plaintiff or Class Members of Defendants' disclosure and/or publication of the existence of Plaintiff's and Class Members' communications nor did Plaintiff or Class Members consent to such disclosure and publication.

128. Pursuant to 47 U.S.C. § 605(e)(3), Plaintiff and Class Members seek:

5 to \$100,000 for each violation; and

6 e. Reasonable attorneys' fees and reasonable costs of this litigation.

7 **FIFTH CLAIM FOR RELIEF**
8 **Violation of 50 U.S.C. § 1809**

9 129. Plaintiffs repeat and incorporate herein by reference the allegations in the
10 preceding paragraphs of this Complaint, as if set forth fully herein.

13 intentionally – (1) engages in electronic surveillance under color of
14 law except as authorized by statute; or (2) discloses or uses
15 information obtained under color of law by electronic surveillance,
16 knowing or having reason to know that the information was
17 obtained through electronic surveillance not authorized by statute.

18 131. In relevant part 50 U.S.C. §1801 provides that:

19 (f) "Electronic surveillance" means – (1) the acquisition by an electronic,
20 mechanical, or other surveillance device of the contents of any wire or
21 radio communication sent by or intended to be received by a particular,
22 known United States person who is in the United States, if the contents
23 are acquired by intentionally targeting that United States person, under
24 circumstances in which a person has a reasonable expectation of
25 privacy and a warrant would be required for law enforcement purposes;
26 (2) the acquisition by an electronic, mechanical, or other surveillance
27 device of the contents of any wire communication to or from a person
28 in the United States, without the consent of any party thereto, if such
acquisition occurs in the United States, but does not include the
acquisition of those communications of computer trespassers that
would be permissible under section 2511 (2)(i) of Title 18; (3) the
intentional acquisition by an electronic, mechanical, or other
surveillance device of the contents of any radio communication, under
circumstances in which a person has a reasonable expectation of
privacy and a warrant would be required for law enforcement purposes,
and if both the sender and all intended recipients are located within the
United States; or (4) the installation or use of an electronic, mechanical,
or other surveillance device in the United States for monitoring to
acquire information, other than from a wire or radio communication,

1 under circumstances in which a person has a reasonable expectation of
2 privacy and a warrant would be required for law enforcement purposes.

3 132. Defendants have intentionally acquired by means of a surveillance device, the
4 contents of one or more wire communications to or from Plaintiffs and Class Members, or other
5 information in which Plaintiffs or Class Members have a reasonable expectation of privacy,
6 without the consent of any party thereto, and such acquisition occurred in the United States.

7 133. By the acts alleged herein, Defendants have intentionally engaged in electronic
8 surveillance (as defined by 50 U.S. C. §1801(f)) under color of law but which is not authorized by
9 any statute, and the Defendants have intentionally subjected Plaintiffs and Class Members to such
10 electronic surveillance, in violation of 50 U.S.C. § 1809.

11 134. Additionally, or in the alternative, by the acts alleged herein Defendants have
12 intentionally disclosed or used information obtained under color of law by electronic surveillance,
13 knowing or having reason to know that the information was obtained through electronic
14 surveillance not authorized by statute.

15 135. Defendants did not notify Plaintiffs or Class Members of the above-described
16 electronic surveillance, disclosure, and/or use, nor did Plaintiffs or Class Members consent to
17 such.

18 136. Defendants' challenged program of electronic surveillance does not fall within any
19 of the statutory exceptions or immunities set forth in 50 U.S.C. § 1809(b).

20 137. There is a strong likelihood that Defendants are now engaging in and will continue
21 to engage in the above-described electronic surveillance, disclosure, and/or use of Plaintiffs' and
22 Class Members' wire communications described herein, and that likelihood represents a credible
23 threat of immediate future harm.

24 138. Plaintiffs and Class Members have been and are aggrieved by the Defendants'
25 electronic surveillance, disclosure, and/or use of their wire communications.
26

1 139. Pursuant to 50 U.S.C. § 1810, which provides a civil action for any person who
2 has been subjected to an electronic surveillance or about whom information obtained by
3 electronic surveillance of such person has been disclosed or used in violation of 50 U.S.C. §1809,
4 Plaintiffs and Class Members seek equitable and declaratory relief; statutory damages for each
5 Plaintiff and Class Member of whichever is the greater of \$100 a day for each day of violation or
6 \$1,000; punitive damages as appropriate; and reasonable attorneys' fees and other litigation costs
7 reasonably incurred.
8

9 **SIXTH CLAIM FOR RELIEF**
10 **Violation of the First and Fourth**
11 **Amendments to the United States Constitution**

12 140. Plaintiffs incorporate all of the allegations contained in the preceding paragraphs
13 of this Complaint, as if set forth fully herein.

14 141. Plaintiffs and Class Members have a reasonable expectation of privacy in their
15 communications, contents of communications, and/or records pertaining to their communications
16 transmitted, collected, and/or stored by Defendants, which was violated by Defendants' above-
17 described actions as agents of the government, which constitute a search and seizure of Plaintiffs'
18 and Class Members' communications and records.

19 142. Plaintiffs and Class Members use the Defendants' services to speak or receive
20 speech anonymously and to associate privately.
21

22 143. The above-described acts of interception, disclosure, divulgence and/or use of
23 Plaintiffs' and Class Members' communications, contents of communications, and records
24 pertaining to their communications occurred without judicial or other lawful authorization,

19 affiliates without the authorization of the New Jersey Plaintiffs and Subclass Members. With the
20 Defendants' knowledge, Defendants were perpetrating a fraud upon the New Jersey Plaintiffs and
21 Subclass Members who the Defendants knew were unaware of and unsuspecting of such illegal
22 activities.
23

24 241. As a result of the Defendants' aforesaid violations of law, pursuant to N.J.S.A.
25 2C:21-17.4, Defendants are liable to the New Jersey Plaintiffs and Subclass Members for all
26 damages and relief allowable by law including, but not necessarily limited to, appropriate legal
27 and equitable relief, an award of damages in the amount of three times the value of all costs
28

1 incurred by the New Jersey Plaintiffs and Subclass Members, attorneys' fees, court costs and any
2 out-of-pocket losses, all such damages in addition to, and not in lieu of any other action,
3 injunctive relief or any other remedy available at law.

5 **NINETEENTH CLAIM FOR RELIEF**
6 **(On Behalf of Plaintiffs Paul Robilotti and**
7 **Alan Toly Sapoznik and the New Jersey State Subclass)**
8 **Civil Remedies Available Pursuant to N.J.S.A. 2C:41-4 (N.J. Civil RICO)**

9 242. Plaintiffs incorporate all of the allegations contained in the preceding paragraphs
10 of this Complaint, as if set forth fully herein.

11 243. At all relevant times herein and by their conduct as aforesaid, the Defendants each
12 committed two or more predicate criminal acts against the New Jersey Plaintiffs and Subclass
13 Members, to wit, by violating one or more provisions of N.J.S.A. 2C:21-7 and/or N.J.S.A. 2C:21-
14 17.3, all in violation of N.J.S.A. 2C:41-2 (prohibited acts pursuant to N.J. RICO).

15 244. As a result of the Defendants' aforesaid violations of law, the Defendants are
16 liable to the New Jersey Plaintiffs and Subclass Members for all damages and relief allowable
17 pursuant to N.J.S.A. 2C:41-4 (NJ Civil RICO).
18

19 **TWENTIETH CLAIM FOR RELIEF**
20 **(On Behalf of Plaintiffs James C. Harrington, Richard A. Grigg,**
21 **Louis Black, the *Austin Chronicle*, Michael Kentor and the Texas State Subclass)**
22 **Unauthorized Use of Pen Registers and Trap & Trace Devices**

23 245. Plaintiffs incorporate all of the allegations contained in the preceding paragraphs
24 of this Complaint, as if set forth fully herein.

25 246. Section 16.03 of the Texas Penal Code makes it a crime if a person "knowingly
26 installs or uses a pen register or trap and trace device to record or decode electronic or other
27 impulses for the purpose of identifying telephone numbers dialed or otherwise transmitted on a
28 telephone line." TEX. PENAL CODE § 16.03 (2005). Defendants and their agents violated this

1 provision by disclosing telephone numbers dialed and other call information to the Government.

2 247. Section 16(a) of Article 18.20 of the Texas Code of Criminal Procedure provides
3 a private cause of action for customers aggrieved by a violation of Chapter 16 of the Penal Code.
4 Plaintiffs James C. Harrington, Richard A. Grigg, Louis Black, the *Austin Chronicle*, and Michael
5 Kentor ("Texas Plaintiffs") and Texas Subclass Members (collectively "Texas Plaintiffs and
6 Subclass Members") seek damages or \$100 per day per violation, punitive damages, and
7 reasonable attorneys' fees and costs. TEX. CODE CRIM. PROC. art. 18.20, § 16(a) (2005).
8

9 248. Defendants' acts and practices are unlawful because, as described above, they
10 violate 47 U.S.C. § 222, 18 U.S.C. §§ 2702(a)(1), (a)(2), and (a)(3), 18 U.S.C. §§ 2511(1)(a),
11 (1)(c), (1)(d), and (3)(a), 40 U.S.C. § 1809, and 47 U.S.C. § 605.
12

13 249. Defendants' acts and practices are also unlawful because they violate 18 U.S.C.
14 § 3121. In relevant part, 18 U.S.C. § 3121 provides that:

15 In general – Except as provided in this section, no person may install or use a pen
16 register or a trap and trace device without first obtaining a court order under
17 section 3123 of this title or under the Foreign Intelligence Surveillance Act of
18 1978 (50 U.S.C. 1801 *et seq.*)

19 250. As defined by 18 U.S.C. § 3127:

20 (3) the term "pen register" means a device or process which records or
21 decodes dialing, routing, addressing, or signaling information
22 transmitted by an instrument or facility from which a wire or
23 electronic communication is transmitted, provided, however, that
24 such information shall not include the contents of any
25 communication, but such term does not include any device or
26 process used by a provider or customer of a wire or electronic
27 communication service for billing, or recording as an incident to
28 billing, for communications services provided by such provider or
any device or process used by a provider or customer of a wire
communication service for cost accounting or other like purposes in
the ordinary course of its business;

(4) the term "trap and trace device" means a device or process which
captures the incoming electronic or other impulses which identify
the originating number or other dialing, routing, addressing, and
signaling information reasonably likely to identify the source of a

1 wire or electronic communication, provided, however, that such
2 information shall not include the contents of any
communication

3 251. Defendants have installed or used pen registers and/or trap and trace devices
4 without first obtaining a valid court order under 18 U.S.C. § 3123 or a subpoena.

5 252. The pen registers and/or trap and trace devices installed and used by Defendants
6 have captured, recorded, or decoded, and continue to capture, record or decode, dialing, routing,
7 addressing or signaling information pertaining to Texas Plaintiffs' and Subclass Members'
8 telephone communications.
9

10 253. Defendants did not notify Texas Plaintiffs and Subclass Members of the
11 installation or use of pen registers and/or trap and trace devices. Texas Plaintiffs and Subclass
12 Members have not consented to Defendant's installation or use of pen registers and/or trap and
13 trace devices.
14

15 254. Defendants are telecommunications carriers that obtain and have obtained
16 customer proprietary network information by virtue of its provision of telecommunications
17 service.

18 255. Defendants used and/or disclosed to the NSA, a government entity, individually
19 identifiable customer proprietary network information pertaining to Texas Plaintiffs and Subclass
20 Members.
21

22 256. Defendants failed to notify Texas Plaintiffs and Subclass Members of the
23 disclosure and/or divulgence of their personally identifiable customer proprietary network
24 information to the NSA, nor did Texas Plaintiffs and Subclass Members consent to such.

25 **TWENTY-FIRST CLAIM FOR RELIEF**
26 **(On Behalf of Plaintiffs James C. Harrington, Richard A. Grigg,**
27 **Louis Black, the *Austin Chronicle*, Michael Kentor and the Texas State Subclass)**
28 **Invasion of Privacy**

257. Plaintiffs hereby reaffirm and reallege the allegations in the previous paragraphs.

1 258. Defendants intentionally intruded on Texas Plaintiffs' and Subclass Members'
2 solitude, seclusion, or private affairs by disclosing call records to the Government. Such
3 disclosure is highly offensive to a reasonable person and is an actionable invasion of privacy
4 under Texas law. The intrusion is particularly egregious for Texas Plaintiffs James C. Harrington
5 and Richard A. Grigg who are attorneys because it amounts to disclosure of facts pertaining to
6 attorney-client communications and other communications in preparation of litigation or criminal
7 trial. Similarly, the intrusion is particularly egregious for Texas Plaintiffs Louis Black and the
8 *Austin Chronicle* because it infringes on these plaintiffs' confidential relationship with sources
9 and informants. Texas Plaintiffs and Subclass Members thus seek damages and court costs.

11 **TWENTY-SECOND CLAIM FOR RELIEF**
12 **On Behalf of the Class Members for Violations of**
13 **Various State Privacy Statutes**

14 259. Plaintiffs incorporate by reference the paragraphs above and further state that
15 Defendants violate various state privacy statutes as set out below by one or more of the following
16 acts without justification: intercepting wire or oral communications; eavesdropping on
17 communications; disclosing communications; recording conversations; wiretapping; using or
18 installing a pen register; and/or using or installing a trap and trace device.

19 260. The acts and practices of Defendants directly, foreseeably, and proximately cause
20 damages and injury to Plaintiffs and the Class.

21 261. The actions of Defendants are in violation of the following state statutes:

- 22
23 a. Ala. Code §§ 13A-11-30; 13A-11-31 (2006)
